

Huawei Mobile WI-FI E5786

Recognize SSID (device name) and Wi-Fi Key

There are two ways to locate this:

On the main screen of the device

On the back of the device

Setup Guide

1. Connect your device, open Browser and go to Huawei 4G+ Pocket home page by entering **http://192.168.8.1** in the Address Bar.

2. Login to the home page by entering the following username and password

Username: admin

Password: admin

3. Go to **Settings > Quick Setup**
4. Default Profile Name is set to **Contract**, Select **Prepay** from Profile Name if it is a prepay customer.

Configure Profile Settings

Step 1 of 2

Profile name:	<input type="text" value="Prepay"/>
User name:	<input type="text"/>
Password:	<input type="text"/>
APN:	<input type="text" value="prepay.vfinternet.fj"/>

New Profile

Next

5. Click **Next** and configure **SSID** and **Password**.

Configure WLAN Settings

Step 2 of 2

Name SSID (Service Set Identifier): Enter a character string, of up to 32 characters in length, as the name for your wireless local area network (WLAN).

SSID:

WPA pre-shared key:

Back

Finish

6. Click **Finish** to end Quick Setup.

Troubleshooting of Huawei Mobile Wi-Fi E5786

Profile Settings

Go to **"Settings"** tab

Select **"Profile Management"**

On the right **"Contract-Default"** states a Postpay number and **"Prepay"** would state a prepay number.

APN for Postpay number: vfinternet.fj

APN for prepay number: prepay.vfinternet.fj

The screenshot shows the Vodafone 4G+ mobile Wi-Fi settings interface. The top navigation bar includes Home, Statistics, SMS, Update, Settings (highlighted), Sharing, and App Management. The left sidebar lists various settings categories, with 'Profile Management' highlighted in blue. The main content area is titled 'Profile Management' and contains a form with the following fields: Profile name (set to 'Contract(default)'), User name, Password, and APN (set to 'vfinternet.fj'). Red arrows point to the 'Profile name' and 'APN' fields. At the bottom right, three buttons are visible: 'New Profile', 'Delete', and 'Apply', which are circled in red.

Changing Network Mode

Go to **"Settings"** tab

Select **"Network Settings"** tab on left

On the right under **"Network"** option you can select the drop down arrow key to change the network mode

Under **"Network Search"** option you can conduct a search with either **"Auto"** or **"Manual"** option

The screenshot shows the Vodafone 4G+ settings interface. At the top, there are logos for Vodafone and 4G+, along with 'Help admin' and 'Log Out' links. A navigation bar contains 'Home', 'Statistics', 'SMS', 'Update', 'Settings', 'Sharing', and 'App Management'. On the left, a sidebar lists 'Quick Setup', 'Dial-up', 'Mobile Connection', 'Profile Management', 'Network Settings' (highlighted with a red box), 'Wi-Fi Extender', 'WLAN', 'Security', and 'System'. The main content area is titled 'Network Settings' and includes 'Network' (Preferred mode: Auto) and 'Network Search' (Mode: dropdown menu). The dropdown menu is open, showing 'Auto', '2G only', '3G only', and '4G only', with '3G only' selected and circled in red. An 'Apply' button is at the bottom right.

Modifying Password

Go to **"Settings"** tab

Select on **"System"** tab

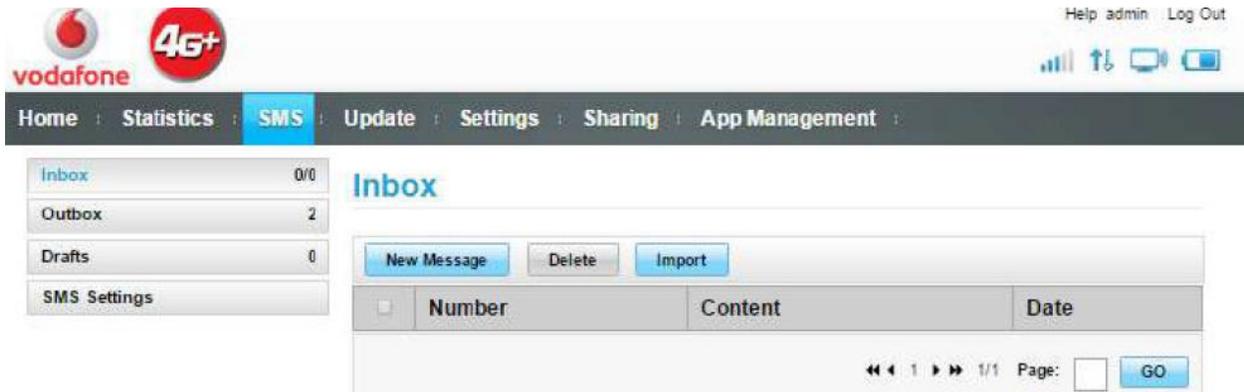

Select on **"Modify Password"**

Follow the rest of the steps to set up your personalized password

The screenshot shows the 'Modify Password' screen in the Vodafone 4G+ settings. The navigation bar is the same as in the previous screenshot. The sidebar on the left shows 'System' selected, with 'Modify Password' highlighted by a red arrow. The main content area is titled 'Modify Password' and contains four input fields: 'Current password:', 'New password:', 'Confirm password:', and 'Password strength:'. The 'Password strength:' field has three radio buttons: 'Low', 'Middle', and 'High'. Below the input fields, there is a checkbox labeled 'Do not remind after login if password strength is low'. An 'Apply' button is at the bottom right.

SMS Option

You can send a blank sms on 131 to check your remaining data balance or send recharge pin numbers to 132 for prepaid customers to recharge their pocket Wi-Fi data number.

The screenshot shows the Vodafone 4G+ web interface. At the top, there are logos for Vodafone and 4G+, and navigation links for Home, Statistics, SMS, Update, Settings, Sharing, and App Management. The SMS section is active, displaying an 'Inbox' with 0/0 messages. Below the inbox, there are buttons for 'New Message', 'Delete', and 'Import'. A table with columns 'Number', 'Content', and 'Date' is visible, along with pagination controls showing '1/1' and a 'GO' button.

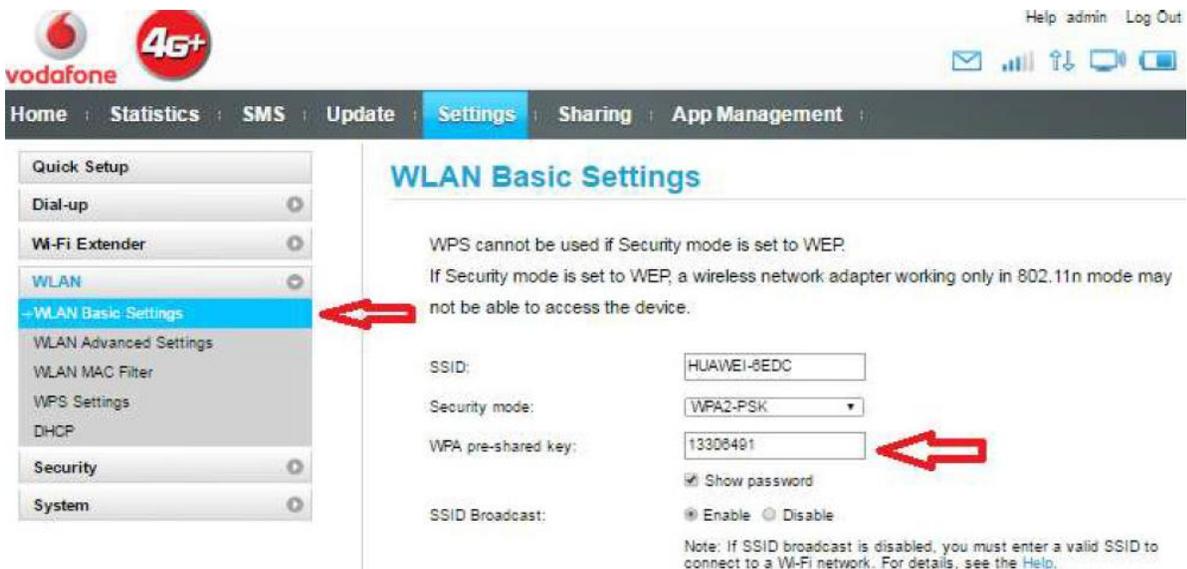

Retrieving Wi-Fi Key

This is already available and displayed on the device however; you can also retrieve using the steps below:

Go to **"Settings"** tab

Select on **"WLAN Basic Settings"**

Check on **"Show password"** – key will get displayed.

The screenshot shows the Vodafone 4G+ web interface with the 'Settings' tab selected. The 'WLAN Basic Settings' section is highlighted in the left sidebar. The main content area displays the following settings:

- WPS cannot be used if Security mode is set to WEP.
- If Security mode is set to WEP, a wireless network adapter working only in 802.11n mode may not be able to access the device.
- SSID: HUAWEI-8EDC
- Security mode: WPA2-PSK
- WPA pre-shared key: 13308491
- SSID Broadcast: Enable Disable

Red arrows point to the 'WLAN Basic Settings' menu item in the sidebar and the 'WPA pre-shared key' field.
